Geometrika, New York Cement Tile

Designed by New York-based architect Luca Andrisani, AIA, the Geometrika cement tile collection is inspired by the abstract art of the 1960s. The tiles come in square, hexagon, and triangle shapes. The 8"-squares measure 0.6" thick and are available in 11 patterns; the 13" triangles measure 0.75" thick and come in 12 patterns; the 8"-tall-by-9"-wide hexagon is 0.6" thick and comes in a single linear pattern. nycementtile.com
